

NEW

High-Power Soldering Station 110W

UNICON35

LEAD FREE DESIGNED

Comfort - Compact - High Cost performance!
UNICON Soldering station became more powerful with 110W heater.

ECO

Heater and iron tip are separated.
Longer life iron tip with approx. 1.5 more iron plating.

"Easy off-set" function enables auto tip temperature adjustment.
"Comfort sensor" enables sleep function and auto shut-off.

User Friendly

Slim shaped grip is comfortable to operators.

Heater is replaceable without any tool.

Comfort

Cleaner unit of grip stand is removable. It enables easy maintenance.

Specifications

Station

Model	U35-ST-10	U35-ST-12	U35-ST-23
Power	AC100V	AC120V	AC230V
Consumption		120W	
Heater input	AC24V		
Outline dimensions	87 (W) × 94 (H) × 165 (D) mm		
Weight	Approx. 1.8Kg		
Temperature range	200~450°C		
Temperature accuracy	Unloaded lipple amplitude ±3°C		
Sleep temperature	100~300°C		

Handpiece

Model	U35M-HD-M11
Heater power	110W
Leakage voltage	Less than 2mV
Tip-ground resistance	Less than 2Ω
Cable ※	Approx. 1.2m
Length	Approx. 235mm
Weight	Approx. 80g

※ Longer cable type available as an option.
